EDUCATION

St. Xavier's College, Ahmedabad — Bachelor of Computer Applications (BCA)

May 2025

CGPA: 7.0/10 | Top 3% of graduating class

- Completed 3+ capstone projects including a full-stack web app deployed for 50+ users; excelled in Advanced Web Development and Database Systems.
- Led Coding Club — organised 5+ workshops on Python, JavaScript, and web development, impacting 100+ students.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, PHP, HTML/CSS

Frameworks & Libraries: Laravel, TensorFlow, Bootstrap, REST APIs

Tools & Platforms: Git, Docker, VS Code, Postman, MySQL, PhpMyAdmin, SQLite

Concepts: Full-Stack Development, NLP, Machine Learning, Database Management, System Architecture

EXPERIENCE

AI/ML Intern — IBM SkillsBuild (via CSRBOX Foundation)

Jun 2024 – Jul 2024

- Engineered an AI chatbot leveraging NLP with Python and TensorFlow; resolved 50+ support tickets daily, achieving a 95% user satisfaction rate.
- Optimised model inference pipeline, reducing average response time by 40% and enabling 50+ concurrent interactions simultaneously.
- Documented end-to-end ML workflows and mentored 5 new interns, cutting onboarding time by 15% and improving overall team efficiency.

Site Developer Trainee — Fruxinfo Pvt. Ltd.

Jun 2024 – May 2025

- Led a team of 3 in architecting and delivering TechGear Hub — a production e-commerce platform built with HTML, CSS, JavaScript, PHP (Laravel), and MySQL.
- Designed full system architecture; integrated payment gateway, PHP Mailer, and FPDF, enabling 100+ daily transactions with zero reported failures.
- Conducted end-to-end testing, deployment, and client demos; strengthened full-stack and project-management expertise across the product lifecycle.

PROJECTS

TechGear Hub — E-Commerce Platform | HTML, CSS, JavaScript, PHP, MySQL

Jun 2024 – Apr 2025

- Led a team of 4 to build a full-stack e-commerce platform; designed responsive front-end, increasing user engagement by 25% and reducing bounce rate by 15%.
- Engineered secure back-end managing 1,000+ product listings with 99.9% uptime; integrated REST API payment processing handling 100+ daily transactions.

AI-Powered Task Management System | Python, Flask, SQLite

2024

- Built a task management web app deployed for 30+ university users; designed RESTful APIs for CRUD operations handling 500+ daily requests at 98% reliability.

Personal Portfolio Website | HTML, CSS, JavaScript

2024

- Developed a responsive portfolio achieving 100% cross-browser functionality across Chrome, Firefox, and Safari; showcased 3+ major projects for recruiters.

CERTIFICATIONS & ACHIEVEMENTS

- Advanced Web Development** — Cognizance'24, IIT Roorkee (Jan 2025) | Focus: modern JavaScript frameworks.
- IBM SkillsBuild AI-ML Internship Certificate** — CSRBOX Foundation (Jul 2024).
- Secured **2nd place** in intra-college hackathon (50+ participants) leading a team of 10.
